Product description

- Aluminium support frames comprising 3 horizontal bars and a pair of uprights, cross-section 75 x 26 mm;
- Frame components held together by screws;
- At floor level, screens are designed in the form of a "U" shaped trough, cross-section 80 x 40 x 40, through which wires can be routed;
- A 15 mm thick layer of melamine foam applied to 3 mm thick MDF panels on either side of a 35 mm cavity ensures effective soundproofing;
- Foam and fabrics classified as M1 unflamable;
- Total thickness of screens: 75 mm;

- Fitted with 2 stabilizer feet;
- Screens can be set up in straight lines or at right-angles to one another. Optional items comprise a variable angle hinge kit, which allows screens to be placed at different angles, and a designer foot to provide added stability to linear layouts;
- Glazed sections comprise clear glass, single-glazed and 4 mm thick.

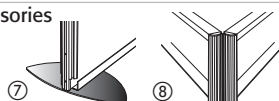

Optional extras: acoustic backs for metal tambour cupboards. Magnetic attachment with positioning plinth. M1 foam and fabric to match the screens.

Melamine screens catalogue pages 116-117

Guarantee and shade card

Product description

- Screens comprising 19 mm thick melamine-faced panels in a decor of beech (MC) or aluminium (MH) or polycarbonate panels trimmed with melamine in a finish of aluminium (PV);
- Support frames comprise a pair of uprights, ø 40 mm, height 160 cm, in an aluminium (SB) or black (SG) finish, with stabilizer plates at the bottom and black ABS caps at the top;
- Optional stabilizer feet are required if screens are to be placed in a straight line;
- ABS clamps screwed into the panels allow screens to be clipped on to the uprights with the minimum of fuss;
- A maximum of 4 screens positioned at varying angles can be fitted to any one upright;
- Layouts comprising more than one screen are created using starter and add-on units.
